Summer camp can be a great experience for children, full of fun and lasting friendships. We are excited to be offering this opportunity to your child to play, discover and evolve with us at BBS Summer Camp. You can choose to enroll your child for two weeks or four weeks.

At BBS Summer Camp our primary focus is to give children the chance to enjoy a rewarding summer camp experience, which builds self-esteem and new friendships through the many diverse, exciting activities. The program is designed to let individuals learn to enjoy time with others as well as the chance to practice self-reliance, leadership-skills-building and social interaction within groups in a caring and safe environment. The activities that are offered are tools to be used to make our campers meet these goals.

Camp's Recommendations:

- 1. In case of any illness - mainly communicable diseases such as chicken pox, measles, mumps, rubella, and scarlet fever... please do not send your child to camp unless he/she is completely cured.*
- 2. If your child has had high fever or flu, he/she should only be sent to camp after 24 hours have passed and fever is considerably lower. This will avoid transmission of infection to other campers or to staff.*
- 3. If your child is complaining of stomach ache and/or vomiting, please keep him/her home the next day.*
- 4. If your child has sore eyes or redness with tears, please consult a doctor to rule out a contagious eye infection before sending the child to camp.*
