

Founder's Vision

Al-Bayan Bilingual School was founded by the late Mrs. Fawzia Al-Sultan Al-Essa (*God bless her soul*) supported by fourteen women. The purpose was to establish a school that bridge, the progress of the west and the traditional values of the Arab culture. Thus, the bilingual program of the school came into existence, a program that prepares the students for the world of today and the challenges of tomorrow, a program that constitute a happy marriage between the “Modern” and the “Traditional”. With this clear vision, Al Bayan Bilingual School was established in 1977, as the first bilingual school in Kuwait.

School Mission

Al-Bayan Bilingual School is an Arabic and English learning community nurturing compassionate and innovative students, leading sustainable change and progress in Kuwait and the global environment.

The School Philosophy

We believe that we are educating students for the rapidly changing world of the 21st century. We agree that technological, social, and economic trends indicate that, more than ever, success and an enriched life will depend upon:

- The development of problem-solving skills, technological capabilities, critical thinking, and analytic abilities needed to deal with an increasingly complex world.
- The cultivation of an international and multi-cultural perspective and skills that will enable one to take advantage of professional opportunities in the international sphere.
- An understanding of the historic, economic, geographic, and environmental forces that have shaped the modern world and the ability to use this knowledge to better comprehend the present and anticipate the future.
- The ability to work with others as part of a team and to experience leadership effectively and appropriately.
- The capability for personal autonomy and motivation for a life of continuous learning.
- Strong self-confidence, resourcefulness, self-esteem, and assertiveness.
- An appreciation of the essential ingredients for sound physical and emotional health, and the capability to utilize the resources available to realize these values and to deal with the stresses of an active life.
- A well-defined code of ethics, values, and standards that are not dependent upon a controlled environment.
